33 9A, Route 35 to Route 71 (Corlies Avenue)	170

Route 35 to Route 71 (Corlies Avenue), widening

The existing roadway has one lane in each direction, with no shoulders. The improvements to the roadway will include widening the existing roadway to accommodate a dual-use center turn lane as well as outside shoulders. The travel lanes will remain 3.6 meters in width, with one lane in each direction. Sidewalks will be installed on both sides of the roadway. The Route 33/Route 35 intersection will be widened to accommodate left-turn lanes at all approaches. The Route 33/Route 71 intersection will be widened to accommodate left-turn lanes for Route 71 northbound and southbound as well as Route 33 eastbound. All intersections between Route 35 and Route 71 will accommodate left-turn lanes to improve traffic flow. All signage and drainage will be upgraded to current standards. The railroad grade crossing east of Memorial Drive will also be replaced. This project will be bicycle/pedestrian compatible.

This is a multi-year funded project under the provisions of Section 13 of P.L. 1995, c.108.
